

THREAT OF PROSECUTION REDUCES PRICE OF BEEF.

Packers Badly Scared by Government's Investigation — Fewest Possible Cattle Being Dressed for Shipment Here and Abroad.

(Special to The Evening World.)
KANSAS CITY, Mo., April 26.—

Following immediately on the heels of the announcement that the Government intends to investigate the methods of the Beef Trust the prices of the higher classes of beef have fallen from 1 to 3 cents. Loins which have cost 23 cents went to 20 cents; ribs, which have been bringing 16 cents, fell to 15, and loin butts, which have been selling for 13 cents, were reduced to 11 cents.

Furthermore, the butchers believe the packers are so badly scared that they will not have the courage to make their usual raise in prices next Monday morning. It was confidently predicted by the packers before the ailing of the Trust's methods was commenced that the price of carcass beef would go to 12 1/2 cents in Kansas City before the grass-fed cattle began to come to market, but the Trust has not raised the price above 10 1/2 cents as yet, and it begins to look as though it has not the nerve to carry out its purpose.

LESS BEEF NOW BEING DRESSED.

Not only have Beef Trust shippers combined to limit the shipments of cattle to Europe in the general scheme of

LITTLE "JOKER" IN BROOKLYN SUBWAY.

B. R. T. WILL BE BENEFITED
BY SPECIFICATIONS.

Bidders for Construction Must
Show Their Facilities for Con-
nection with Other Roads.

It has just been disclosed that a very wonderful provision is to be inserted in the specifications for bids for the construction of the \$5,000,000 Brooklyn subway.

This provision will require each of the bidders to show what facilities he has for connecting with existing transportation lines, it being understood that these facilities are to be considered in awarding the contract.

If the Brooklyn Rapid Transit had drawn the contract it could not be better pleased.

MEALS WITHOUT MEAT.

DINNER NO. 7.
SUNDAY, APRIL 27, 1902.
Soups—Macaroni or Pea.
Entrees—Gratin of Cauliflower, Macaroni, Baked Beans with Potatoes.
Meats—Nut Roast, Vegetarian Beefsteak.
Vegetables—Peas, Lettuce, Sweet Corn, Boiled Potatoes.
Desserts—Lemon Pudding, Rice Pudding, Fruit Pudding, Fruit Steaks.
Cocoa, Milk, Chocolate, Vegetarian Coffee, Hot Water with Cream, Grape Juice.

The Evening World will print each day a menu for a meal with meat. It will be based on information furnished by Carl Rasmussen, who runs a vegetarian restaurant at Fulton and Cran-

berry streets, Brooklyn. He serves meals, giving a selection from similar bills of fare for 25 cents, so these meals cannot be expensive.

The "meat" in the bill is a preparation of nuts and vegetables.

Increasing the price of meats to rich and poor alike, but it is also a fact that today fewer cattle are being slaughtered in the abattoirs than at any time within the last six years.

The Evening World has this information from Government agents connected with the United States Bureau of Animal Industry, who compile the figures and inspect every head of cattle shipped from this port and all the products of the great slaughter-houses.

The following table shows the immense falling off in the number of cattle shipped from and slaughtered in New York during the first four months of this year as compared with the same term for the last year.

The operations of the Beef Trust have had such an effect upon the prices of butter and milk that the former commodity has risen in one month 13 cents per pound, while milk is only a quarter of a cent higher.

Of course when it comes to connecting with "existing transportation lines," the Brooklyn Rapid Transit is in at the finish and the rest are nowhere.

On the other hand the August Belmont-John B. McDonald Company can show its facilities for connecting with the rapid-transit road in Manhattan.

But the joker lies in the fact that the Rapid Transit Commissioners have power to connect the two subways—the one from Brooklyn and the one in Manhattan.

LESSER USES INFLUENCE.

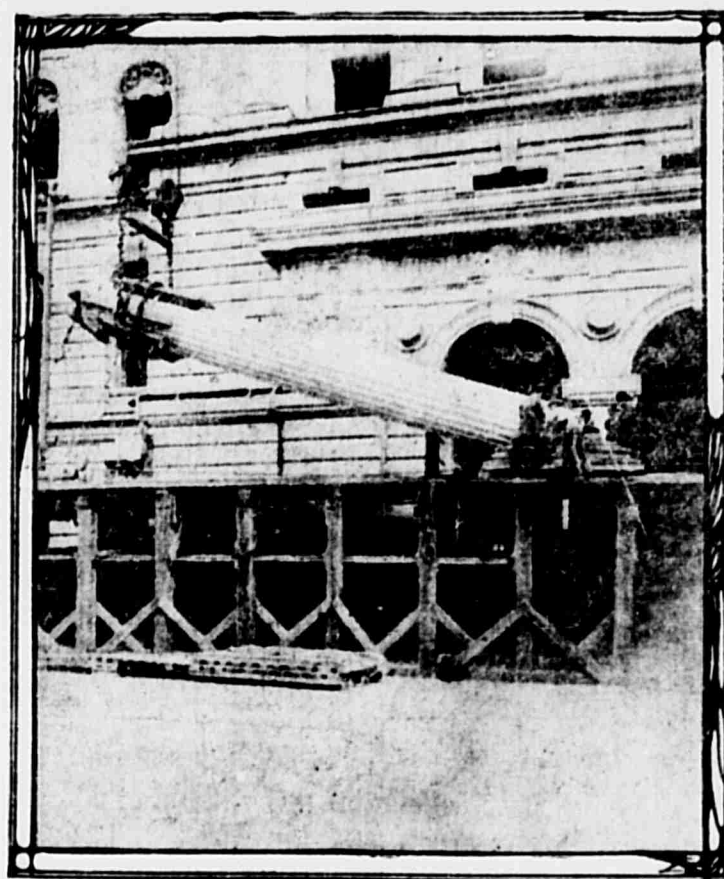

Congressman Montague Leasler, who defeated Perry Belmont for the seat in Congress from the Seventh District last January, appeared in Harlem Police Court this morning to intercede with Magistrate Zeller in behalf of his fifteen-year-old brother, William Leasler, of No. 150 West One Hundred and Twenty-seventh street.

The boy was arrested by Policeman Schlamp, of the West One Hundred and Twenty-fifth Street Station, Friday evening in front of the Harlem Opera House. The policeman said the boy was loitering and refused to move when told to do so.

Magistrate Zeller discharged him without even a reprimand.

MASSIVE IRON CRUSHED BY WEIGHT OF MONOLITH.

Raising Column in New Hall of Records Is a Task for Titans.

Great difficulty has been experienced in the effort to place the first of the forty-one ton granite columns in place on the facade of the new hall of records, at Chambers and Centre streets.

The attempt to raise it, abandoned yesterday when it was seen that the preparations were not sufficient, will be resumed today.

The shaft is the largest piece of granite ever quarried for a public building in the United States. The Dock Department would not permit the huge monolith to be landed at a pier, through fear of an accident and it was landed at a bulkhead.

The shaft is one of eight, and is to extend from the second floor of the building to the fifth. Two immense iron rods, four inches in diameter, are placed in the bottom of the granite shaft and are to rest in a hole in the base of the support of the shaft.

The chains that are to lift the shaft are attached to the other end of the huge mass, and when that end was lifted so much weight was left on the iron rods that they bent like leather.

This necessitates new rods and a different arrangement of the cables and chains. The derrick that will lift the shaft into position has raised 175 tons previously and is securely braced.

CURB MARKET ACTIVE.

General Carriage Feature of Trading—Low-Priced Issues Led.

The curb market opened strong and active with the lower-priced issues again leading.

New York Transportation rose over 2 per cent. New England Vehicle was active and sold up to 2-5-8. Northern Securities sold at 10 1/2 and Bay State Gas was active at 1-1-4.

General Carriage was again a feature, selling as high as 16, and then, by violent reaction, reaching as low as 12.

The opening curb quotations in the active securities were:

General Carriage, 16; New England Vehicle, 2-5-8; Northern Securities, 10 1/2; Bay State Gas, 1-1-4.

General Carriage was again a feature, selling as high as 16, and then, by violent reaction, reaching as low as 12.

The opening curb quotations in the active securities were:

General Carriage, 16; New England Vehicle, 2-5-8; Northern Securities, 10 1/2; Bay State Gas, 1-1-4.

General Carriage was again a feature, selling as high as 16, and then, by violent reaction, reaching as low as 12.

STOCKS CLOSED AT LOWER LEVEL.

BANK STATEMENT FAILED TO
STIMULATE PRICES.

Holiday Dullness Marked Trading,
but Tone Remained Steady—
Changes Fractional.

The stock market today opened with a moderate display of activity, but after the first fifteen minutes of trading the market took on a half holiday tone and business was not so brisk.

The opening prices were irregular and the changes only fractional, with the exception of International Power, which opened with a gain of nearly 10 points at 192.

Trading was fairly well distributed at the opening. The general tone was rather feverish in the early trading, but quieted down later.

The bank statement did not seem to have much effect on the market. After it came out trading was even less active than in the earlier market.

Prices were off a shade, but the tone remained fairly steady. Just before the close trading became more active, but with no material change in prices.

The closing was moderately active and a shade above the lowest point of the day. The total sales of stocks were 477,299 and of bonds \$2,244,000.

The Closing Quotations.
